Action Items

9.1 School Naming: Johnson and Burnley-Moran Elementary Schools: Dr. Beth Baptist, Coordinator of Special Projects, presented the School Naming: Johnson and Burnley-Moran Elementary Schools item for Board action. At the March 18, 2023 School Board Advance, there was consensus among the Board, and Dr. Gurley, to take action and affirm the idea of changing the names of Burnley-Moran and Johnson Elementary Schools but to pause on the actual selection of the two new names.

The hope is that with further time for reflection, the Division will find names that more fully align with the guiding principles of purpose and place.

A name with “purpose” might be values-driven or aspirational. A name filled with purpose would communicate our goal of helping students be their best selves and make our world better. The new names for Venable (Trailblazer) and Clark (Summit) demonstrate purpose—inviting students to be trailblazers or to reach new summits.

A name with “place” might focus on the local schools’ own history or geographic location. Again, at Venable, the name “Trailblazer” honors the school’s history as a site where members of the Charlottesville 12 desegregated our schools. Clark’s mountain views and the fact that it is situated on high ground in Belmont led to the selection of “Summit.”

It may not be possible to find names for Burnley-Moran and Johnson that combine both purpose and place, but we would like to slow down the name selection process to give us the best chance of finding lastingly meaningful and fitting names for our schools.

Next Steps

- Division staff are reaching out to horticulturalists and other local experts who can generate some ideas inspired by plants, trees, or geographical features that are unique or local to Charlottesville or these schools.
- The facilitators who are helping to develop the next Charlottesville Schools strategic plan will meet with Burnley-Moran and Johnson staff members to consider name possibilities. Depending on whether each school’s staff emerges with a single recommendation or a few finalist names (or if they need additional time), we will craft a plan moving forward.
- Have a nomination for us to consider? Let us know. We received a number of nominations in the initial survey but are still listening. Just remember that the committee has decided against selecting new names that honor people.
- We’ll keep our students posted – especially our third- and fourth-graders who already expressed some of their ideas as part of this process.

Dr. Kraft made a motion to commit to and continue the process of renaming schools while taking a pause on action for any specific new names. Ms. Torres raised a point of clarification to clarify the motion that the division is to continue with the process moving forward with the process but pausing on taking action for any specific name at this time. Dr. Kraft agreed. Ms. McKeever made a motion to pause the process, Mr. Morse seconded the motion. Upon a roll-call vote, the motion carried with Mr. Bryant, Dr. Kraft, Ms. McKeever, Mr. Morse, and Torres, voting yes and Ms. Bryson Morsberger voted nay. 5 ayes, 1 nays.

Ms. McKeever shared her concern around the renaming process and supported a pause before committing to any further changes in order to get to a process that the Board can stand behind.

Ms. Bryson Morsberger stated that she does not support pausing the process and noted that many people will never be comfortable with such changes.

Dr. Kraft said that as a member of the committee she is in favor of a pause and engaging a third party to provide more clear criteria for the process and the names themselves.

Ms. Torres supportsex pausing the renaming process and noted that such a pause will allow for additional time around City funding and preparation for better communication with City residents around school name changes that are impacted by rezoning for voter re-precincting.

Je’Saun Johnson encouraged everyone to reflect on the reason why the Division began the name changing process and highlighted the need to use names that are inclusive and supportive of all students.

Mr. Bryant agreed on pausing the process and highlighted the need to find names that better represent the diversity of the Charlottesville community.

9.2 Approval - Hourly Rate Change due to the State's Minimum Wage Increase: Renee Hoover, Director of Finance, presented information on the Hourly Rate Change due to the State's Minimum Wage Increase at the March 18, 2023 School Board Quarterly Advance for Board consideration. Per the Virginia Minimum Wage Act, the hourly minimum wage increased to \$12 per hour effective January 1, 2023 from a minimum wage of \$7.25 per hour. Impacted individuals include substitute instructional assistant, designated extended substitute instructional assistant (for 2 weeks or longer, scheduled in advance) and high school student, graduate - working with students.

The differential for instructional assistants substituting for teachers has not been updated in several years. The differential is the amount added to the regular hourly rate. Increase the current hourly rate of \$5.71 to \$8.00.

	Current Hourly Rate	Recommended Hourly Rate
Substitute Instructional Assistant	\$11.00	\$15.00
Designated Extended Substitute Instructional Assistant	\$11.43	\$17.00
High School Student, Graduate - Working with Students	\$9.75	\$15.00
Shift Differential for Instructional Assistant Substitute for Teacher	\$5.71	\$8.00

Ms. McKeever made a motion, seconded by Ms. Torres, to approve the hourly rate changes as presented for substitute instructional assistant, designated extended substitute instructional assistant (for 2 weeks or longer, scheduled in advance) and high school student, graduate - working with students. Upon a roll-call vote, the motion carried with Mr. Bryant, Ms. Bryson Morsberger, Dr. Kraft, Ms. McKeever, Mr. Morse, and Ms. Torres, voting yes. 6 ayes, 0 nays.

Items for Discussion

10.1 Charlottesville-Albemarle Technical Education Center (CATEC) Update: Stephanie Carter, CATEC Director, presented an update on the Charlottesville-Albemarle Technical Education Center (CATEC). Information presented included:

- Current Cost Allocation Structure
 - CATEC currently has 400 available seats in 10 programs
 - The current 2023-24 budget is approximately \$3.8 million including Adult Programs
 - Enrollment requests
 - 25% of total slots allotted to each local high school
 - Using assigned base school, Community Lab, Elk Hill, LMA, and Ivy Creek register during this time as well
 - Enrollment windows reserve seats to allow counselors to get through "program request season"
 - 01/18 - 03/31: Each school has equal number of seats reserved
 - 04/10 - 04/28: Seats open to all schools; students are moved from waiting-lists as appropriate
 - 05/01: All remaining seats are open to homeschool and out-of-district students
 - ACPS & CCS split capital (CIP) costs 50/50
 - The current structure was devised in 1969 when the school opened. At this time, there was only one high school in each locale.
 - The current funding structure is based on a formula created by founding members of the CATEC Center Board.
 - The formula uses 4 year averages with half of the allocation based on each division's percentage of total 9-12 fall membership across the four high schools, and the other half based on each division's 4 year average CATEC membership.
- Moving Forward - Slots
 - Slots will be offered to ACPS under rolling agreements for periods not less than 3 years

- Many CTE programs are 2 years
- If a student finishes year 1 at CATEC and remains in good standing, the student is guaranteed a slot for year 2 in each division's allocation of slots
- Multi-year agreements will ensure no sudden changes that could cause undue fiscal or operational stress for all stakeholders
- The initial percentage of slots offered to ACPS will approximate the current slot allocation

- Example: Rolling 3 Year Slot Reservations

October 2023	Slot determination for 2024	Slot determination for 2025	Slot determination for 2026
October 2024	Slot determination for 2027		
October 2025	Slot determination for 2028		

- Moving Forward - Tuition
 - Tuition Calculation:
 - Total operating budget (excludes all capital expenses)
 - Less certain overhead costs (utilities, maintenance, non-instructional personnel)
 - Less any programs/resources that are exclusive to a division - charged directly to the appropriate division
 - Example: CATEC EMS instructor who teaches certain classes at WAHS
 - Divided by total number of slots
 - The tuition rate will be set on a biennial basis, corresponding with the state biennial budget process, with the Consumer Price Index (CPI) applied to year 1 tuition to determine the rate for year 2.
 - This same slot tuition rate will be charged to any school district reserving student slots outside Charlottesville City
 - For ACPS, this calculation will result in lower costs per slot than would have been incurred under continuation of the partnership due to capital and overhead costs now funded solely by the City.
