

**Charlottesville City Schools
School Board Presentation
February 2, 2023**

Overview: Bridging the Gap (BTG)

This initiative will spotlight -

some of the **great programs**,
intervention strategies, and
successes that school divisions
across Virginia are implementing.

Components

- Individualized Student Data Reports
- Personalized Learning Plan
- Comprehensive training for teachers

BTG

Pilot Implementation Year 22-23

The project pilot would not be possible without the partnership of committed school divisions.

Participation in the pilot can include the entire division or a small group from the division.

Charlottesville City Schools will pilot this project at Buford Middle School in Grade 7.

BTG Pilot Implementation Year 22-23

The VDOE's project pilot will focus on the **best methods and processes** for scaling up the **tools, training, family engagement** required to enhance the transparency with every student's learning journey.

VDOE will use this pilot year to collect and implement feedback from superintendents, school leaders, families, and teachers so that the initiative is responsive to unique local needs.

Participating divisions will:

- Have early access to the state's new analytics platform called VVAAS
- Implement a personalized learning plan
- Ensure that families have the information they need to advocate for their child's success

So far Charlottesville City Schools has:

- Participated in a VDOE webinar with other school divisions
- Discussed the goals and components of the pilot with Dr. Gurley
- Introduced the pilot program to the Buford Leadership Team
- Created a Personalized Learning Plan (PLP) template
- Identified teachers & students for the pilot

Next Steps:

- Attend BTG Trainings - starting in February for Division leads, Admin, Coaches, Specialists, and Teachers
- Provide student data for input into VVAAS (SOLs & MAP)
- Implement a personalized learning plan for identified students
- Support Buford through the pilot process

Thank you!
