Virginia Tiered Systems of Support

At Charlottesville City Schools, we're committed to helping our students succeed. This happens in a positive school culture where students are supported according to their needs.

These support systems work on several underlying principles, such as:

- Academics, behavior, and mental wellness are often interrelated.
- A positive culture of good relationships is foundational.
- Communicating clear expectations is important.
- Problem-solving is a teaching opportunity.

Tune in with Patrick Farrell, our Intervention and Support Supervisor to learn about the three tiers offered to our students in five primary areas of support: Attendance/Engagement, Positive School Culture, Math, Literacy, and Mental Wellness. Scan the QR code to register now!
